

Application No. 10/762,806
Amendment dated July 11, 2005
Reply to Office Action of March 10, 2005

Amendments to the Specification:

Please replace the paragraph beginning on page 21 at line 21, with the following amended paragraph:

5

The astragal 10 is mounted to edge 90 of inactive door 92 of door frame 94, and the adjustable strike mounting system 1 is mounted to the astragal 10, as shown in FIGS. 4 and 5. The astragal 10 has opposing ends 96 and bolts 98, the bolts 98 slidably mounted in the longitudinal channel 68 of the astragal 10 at the opposing ends 96, for securing the
10 inactive door 92 to sill 100 and/or header 102 of the door frame 94. The astragal 10 may have actuating means for retracting and/or extending the bolt 98 into the sill ~~110~~ 100 and/or the header 102. Lockset 104 and/or deadbolt 106 are mounted to active door 108 of the door frame 94.
